Introduction

Club Penguin Atake provides many services and opportunities for our users to enjoy the full experience. Although we offer a majority of our services through our own resources, there are certain services that are externally procured, collaborated with, or promoted, which aid us in fully establishing our present status. We have created this policy to ensure that everyone has a clear understanding of how those external services process or receive your data and how they work with our services.

For your own comfort, this policy is split into three parts that resemble the Advertised, Collaborated/Partnered and External services.

Advertised Services

Club Penguin Atake does not have advertised services.

Our media services, such as Club Penguin Atake TV, Club Penguin Atake Radio, and Club Penguin Atake E-Reader, frequently need the use of large media assets, such as movies, high-quality music files, and e-books.
